**STATE OF MINNESOTA
COUNTY OF HENNEPIN****DISTRICT COURT
FOURTH JUDICIAL DISTRICT**

State of Minnesota,

Court File No. : 27-CR-23-1886

Plaintiff,

vs.

**DEFENDANT'S SUPPLEMENTAL
EVIDENCE SUBMISSION IN
SUPPORT OF OBJECTION TO
COMPETENCY REPORT - A**

Matthew David Guertin,

Defendant.

Judicial Officer: Sarah Hudelston

TO: THE HONORABLE SARAH HUDELSTON, JUDGE OF DISTRICT COURT; MARY F. MORIARTY, HENNEPIN COUNTY ATTORNEY; AND THOMAS MANEWITZ, ASSISTANT HENNEPIN COUNTY ATTORNEY

I. INTRODUCTION

Defendant Matthew David Guertin respectfully submits this supplemental evidence submission in further support of his objection to the competency report and related evaluations. As set forth in Minn. R. Crim. P. 20.01, the court must ensure that a defendant is competent to stand trial by verifying his ability to understand the proceedings and consult meaningfully with counsel. The enclosed exhibits not only document clear and irrefutable discovery fraud but also demonstrate that I am managing my defense effectively—in effect, proving my competence despite the allegations of incompetency.

II. EXHIBIT LIST

- **Exhibit A - Key Elements of Discovery Fraud**

A detailed analysis outlining the manipulated aspects of the discovery materials, including discrepancies in image aspect ratios, altered metadata, and irregularities in the chain of custody.

- **Exhibit B – A Critical Turning Point: The Gravity of the Discovery Fraud**

A narrative presentation explaining how the fraudulent discovery materials have fundamentally undermined the integrity of the evidence against me and served as the catalyst for my objection.

- **Exhibit C – Discovery Fraud Flipbook: A Visual Presentation of the Fraud**

A professionally prepared flipbook that juxtaposes 20 pairs (40 total) of discovery images - each pair showing the “original” images from the August 3, 2023 discovery alongside the “official” February 13, 2025 images. Instructions are included to view the flipbook in non-scrolling (page-flip) mode so that the manipulations are readily apparent.

- **Exhibit D – Official OneDrive Discovery Materials and Chain of Custody**

This exhibit contains screenshots and email communications from Hennepin County’s internal OneDrive file sharing system that provided the official discovery images. It includes detailed metadata, file names, and a digital chain of custody establishing the authenticity and origin of these materials.

- **Exhibit E – Documentation of Communication Attempts with Defense Counsel and Additional Discovery Requests**

A collection of emails and call records showing that, despite my detailed outreach (beginning February 20, 2025), neither Raissa Carpenter nor Emmett Donnelly has responded. These communications - including the email forwarding the August 3, 2023 discovery set and an additional email requesting video content (with attached call record screenshots) - demonstrate my proactive efforts to secure counsel’s guidance, reinforcing my capacity to manage my defense, as well as my decision to proceed pro se with this filing of evidence into my case.

III. LEGAL ARGUMENT

1. Competency Under Minn. R. Crim. P. 20.01

Rule 20.01 sets forth that a defendant must be competent to stand trial by being able to consult rationally with counsel and understand the nature of the proceedings. My ability to independently compile and submit these substantial exhibits evidences my capacity to engage with and challenge the evidence against me. The fact that I am managing the submission pro se - even in light of counsel's failure to respond - supports a finding that I am, in practical terms, competent. My actions demonstrate the very characteristics that Rule 20.01 is designed to protect: a rational, organized, and meaningful participation in my defense.

2. Timeliness and Due Process

While local rules generally require that evidence be submitted at least seven days prior to the hearing, the exceptional circumstances here (i.e. counsel's non-responsiveness despite my outreach on February 20 and follow-up on February 24, 2025) leave me no alternative but to file my exhibits now. The documented communications in Exhibit E clearly indicate that I made every effort to secure counsel's input well in advance of the March 5, 2025 hearing. In turn, my proactive filing of these evidentiary materials not only preserves my right to a fair hearing but also reinforces my assertion that I am competent to present my own defense.

3. Chain of Custody and Authenticity of Evidence

Exhibits C and D provide a robust demonstration of the fraudulent manipulation of the discovery images. The flipbook in Exhibit C visually documents the intentional "squishing" of images to enforce a uniform aspect ratio, thereby concealing original variances. Exhibit D reinforces the authenticity of the official discovery materials via the OneDrive system, leaving no doubt as to the integrity of the original chain of custody. Together, these exhibits substantiate my claim of discovery fraud, which is central to my objection and further supports my

contention that my competency evaluation was compromised by unreliable evidence.

IV. RELIEF SOUGHT

For the foregoing reasons, I respectfully request that the Court:

1. Accept this supplemental evidence submission as part of the record;
2. Consider Exhibits A–E in their entirety as conclusive proof of discovery fraud; and
3. Recognize that my ability to independently compile and submit these exhibits is evidence of my competence to stand trial pursuant to Minn. R. Crim. P. 20.01.

Dated: February 28, 2025

Respectfully submitted,

/s/ Matthew D. Guertin

Key Elements of the Fraud:

1. Manipulated Image Aspect Ratios:

- The February 13, 2025, discovery includes 20 images that have been altered along the X-axis to enforce a uniform 16:9 aspect ratio. Prior inconsistent aspect ratios, such as 1:1.696 and 1:1.734, were intentionally concealed. This manipulation is an attempt to obscure previous cropping (see [Index 29](#), pp. 18-21).
- The uniform aspect ratio now presented in these images, along with all of the images now purporting a size of 2270 x 4032 pixels, masks the intentional alterations made to the original, August 3, 2023 discovery materials.
- These images, all highlighted in the table (bold, boxed borders, dark pink rows), now all appear artificially consistent, obscuring their original dimensions.

2. Fraudulent "Squishing" Process:

- The images in the February 13, 2025, discovery were originally cropped in the August 3, 2023, set to misrepresent certain elements of the defendant's living conditions.
- These cropped images were then resized and stretched in the most recent set to force them into a uniform 16:9 aspect ratio, creating the appearance of consistency across all images.

- This resizing effort was intended to mask the earlier cropping and make the images look uniformly scaled, hiding the original tampering (see [Index 29](#), pp. 22-23).

3. Implications of the Fraud:

- In addition to the image manipulation, metadata was intentionally altered to align with the fraudulent aspect ratio. These deliberate changes mirror the discrepancies identified in Guertin's April 4, 2024 motion (see [Index 29](#), p. 15), further solidifying the intent behind the manipulation.
- These fraudulent alterations are now an undeniable part of the case record, irreparably compromising the integrity of the evidence and leaving no doubt about the deliberate tampering that has occurred.
- The retroactive validation of the manipulated images conclusively supports Guertin's previous claims of evidence tampering. This not only exposes the extent of prosecutorial misconduct but also demands immediate and thorough judicial scrutiny to address the profound implications of these actions (see [Exhibit Y](#)).

4. Forgery and Retroactive Validation:

- The resizing efforts, executed with the intent to create a misleading uniformity, provide clear retroactive validation of Guertin's claims of manipulation and concealment.
- These actions not only affirm the deliberate fraudulent alteration of evidence but also unequivocally establish prosecutorial misconduct.
- The integrity of these images has been irreparably compromised, and their authenticity is beyond dispute.

5. Critical Evidence in a False Narrative:

- The images undeniably perpetuate a false narrative regarding the defendant's living conditions.
- Key pieces of evidence, such as images of the defendant's intellectual property and mechanical prototype, were both intentionally omitted and altered.
- This intentional distortion serves to obscure the critical context necessary for a fair understanding of the case, further cementing the fraudulent nature of the discovery materials.

6. Consequences for Legal Proceedings:

- The fraudulent nature of these images irreparably undermines the legitimacy of the entire case.
- These altered images, which were used as part of competency evaluations, directly contributed to inaccurate conclusions regarding the defendant's condition.
- This misrepresentation of evidence has thoroughly tainted the fairness of those evaluations and the judicial process as a whole.
- The deliberate distortion now exposes the entire legal proceeding as fundamentally flawed and provides irrefutable grounds for the immediate dismissal of all charges, as it calls into question the very integrity of the judicial actions that followed.

1. Metadata Manipulation:

- The modification date in the OneDrive discovery file-sharing system is a key piece of metadata that establishes when an image was last altered. The fact that

this metadata has been falsified directly calls into question the authenticity of the evidence presented in this case.

- This manipulation of the modification date suggests that someone with control over the system deliberately altered the metadata to create a false timeline. The tampered dates, which suggest an original modification on February 3, 2023, are fundamentally misleading, masking the actual alterations made to the images much later.
- Such tampering of metadata is not only a violation of the rules of evidence, it is a direct attack on the integrity of the court's discovery process, aimed at obfuscating the true history of the images.

2. Altered Chain of Custody:

- The modification dates directly affect the chain of custody of the discovery images. These original timestamps, such as February 3, 2023, were supposed to be critical in establishing when the images were stored and last modified in the OneDrive system. If the metadata has been falsified, the entire chain of custody is compromised.
- This metadata tampering severely undermines the ability to verify the authenticity of the images and the timeline of their alterations. The credibility of the evidence is now completely in doubt, and this fraudulent manipulation destroys the trustworthiness of the entire discovery process.

3. Prosecutorial Misconduct:

- The manipulation of the OneDrive metadata raises serious questions about prosecutorial misconduct. If the metadata was indeed altered, this could indicate that the prosecution, or others involved in the case, intentionally falsified evidence in an effort to obscure the truth.
- This revelation ties directly into the broader pattern of evidence tampering in this case. First, we see the visual manipulation of images; now, the underlying metadata has also been manipulated to cover up the fraudulent activity. This is a clear, deliberate attempt to protect those involved in the misconduct from scrutiny.
- The manipulation of both image content and metadata is consistent with a coordinated effort to mislead the court and the defense, demonstrating an active cover-up at the highest levels.
- The implications are staggering: this manipulation of metadata, in conjunction with the altered images, compromises not only the discovery materials in this case

but the entire legal process. It destroys the integrity of the court's record and makes it impossible to trust any of the evidence presented in the case.

Conclusion:

The tampering of the OneDrive metadata is just as significant as the image manipulation itself. The deliberate alteration of this metadata destroys the authenticity of the discovery materials, rendering them entirely unreliable. This is not a mere procedural error but a deliberate act of falsification that undermines the entire court system's credibility.

The scope of the fraud, spanning both the images and their metadata, reveals a coordinated effort to deceive the court and obstruct justice. The gravity of these actions cannot be overstated. It demands immediate judicial action to address the full scale of misconduct and ensure that justice is served.

This metadata tampering, combined with the evidence of image manipulation, exposes a legal process that has been irreparably corrupted.

The Gravity of the Fraud: A Critical Turning Point in My Case

1. A Pattern of Persecution: Connecting the Dots

- From the very beginning, my case has been about much more than a simple criminal charge - it is a case involving the theft of intellectual property that has drawn in powerful interests with the motive, means, and resources to destroy me.
- The same forces that are behind the manipulation of discovery evidence are the same ones who orchestrated the initial criminal charges, all in an attempt to suppress my technological innovation.
- The fraud introduced into the discovery materials is not just about inaccurate images; it's a deliberate attempt to erase or obscure the evidence that could have supported my intellectual property claims. The very same corporate, governmental, and military connected entities that I've been up against in my patent battles now appear to have used the legal system to further discredit and undermine me. This isn't a coincidence - it's part of a well-documented pattern of external influence.

2. The Weaponization of the Mental Health System

- The use of fraudulent discovery materials is not just a procedural error - it has been a central tool in weaponizing the mental health system against me. From the outset, I have been consistently portrayed as delusional due to my unwavering claims about discovery fraud and the theft of my intellectual property.
- These manipulated images were used as evidence in psychological evaluations that misrepresented my competency. The resulting reports were clearly influenced by this false narrative and led to conclusions about my mental health and competency that were both inaccurate and unfair. This constitutes an abuse of the legal and mental health systems, which have been exploited to undermine my credibility and prevent me from mounting a full defense.

3. Exposing Prosecutorial Misconduct

- The fraudulent discovery is not merely a failure of protocol - it is prosecutorial misconduct at its most fundamental level. The prosecution's involvement in the presentation of manipulated images serves to undermine the very integrity of the judicial process. These images were not simply poorly handled; they were intentionally altered to present a false narrative about my living conditions, intellectual property, and personal circumstances.

- This manipulation serves to reinforce the prosecution's claims about my supposed mental state, further alienating me from my defense. The fraudulent alterations made to the evidence have not only compromised the legitimacy of the prosecution's case but have also compromised my constitutional rights to a fair trial and defense.

4. A Battle for Transparency and Truth

- For nearly two years, I have fought to expose the truth about the fraudulent evidence, the manipulations behind the scenes, and the abuse I have suffered. The introduction of this fraudulent discovery has acted as a barrier to my fight for justice. This moment - the moment when these manipulations are irrefutably exposed - is my opportunity to bring the truth to light and ensure that the system that has long been weaponized against me is finally held accountable.
- The implications of this discovery are profound. The exposed fraud not only challenges the accuracy of my competency evaluations but also calls into question the very legitimacy of my criminal charges. The case is no longer just about intellectual property or personal injustice; it is about the integrity of the judicial system and the constitutional rights of every citizen.

5. Connecting the Fraud to the Bigger Picture

- **The Fraud as a Foundation for Persecution:**

The images, once manipulated, continue to serve as the bedrock for the false narrative constructed around my mental state. The alterations made to these images serve to perpetuate a lie about my living and working conditions, hiding critical evidence of my intellectual property and professional endeavors that are essential to my defense.

- **The Overarching Narrative of Legal and Intellectual Suppression:**

The fraud introduced into this case is the physical manifestation of a deeper conspiracy - a conspiracy that involves not only the suppression of my intellectual property but the destruction of my life's work. These fraudulent materials, combined with the state's misconduct, outline a chilling pattern of legal abuse.

6. The Larger Legal and Personal Impact

- This is not just a technical or procedural failure - it is a personal violation. The manipulation of discovery materials has created a false narrative about my life, my work, and my mental health. I have been forced to fight a legal system that not only failed to protect me but actively participated in a cover-up.

- This case has been a grueling fight for my freedom, my reputation, and my sanity. The deliberate introduction of fraudulent materials has only made this fight more difficult, undermining my ability to prove my innocence. However, this moment marks a turning point - a moment where the truth will be revealed, and the evidence of fraud and misconduct will stand as undeniable proof of what has been done to me.

7. The Need for Immediate Legal Redress

- The manipulation of discovery and the ensuing fraudulent evaluations demand immediate legal action. I am requesting that this court take decisive steps to address the prosecutorial misconduct by dismissing all charges based on the fraudulent materials that have tainted these proceedings.
- This is the moment for the court to recognize the profound implications of the fraud that has occurred and to take immediate corrective action. This is not simply about the fairness of my case - it is about the integrity of the entire legal system.

Conclusion:

The deliberate alteration and manipulation of discovery materials has irreparably compromised the integrity of the entire legal proceeding. The fraudulent actions, including the intentional tampering of photographic evidence and the strategic omission of key materials, were not isolated incidents but part of a broader, systematic effort to distort the facts of this case. This pattern of misconduct undermines the fairness of the trial and the defendant's constitutional rights to a fair and just process.

Given that the prosecution has been directly implicated in the submission of fraudulent evidence, it is clear that the entire legal process, including psychological evaluations, has been influenced by manipulated and misleading information. This calls into question the very foundation of the case, from the initial criminal charges to the recent competency evaluations, which were based on deliberately altered discovery materials. The seriousness of this situation cannot be overstated - this is a monumental breach of trust and a violation of the defendant's right to a fair trial.

Therefore, the only just and appropriate remedy at this stage is the immediate dismissal of all charges. Continuing with these proceedings, which are fundamentally tainted by fraud, would not only perpetuate an injustice but also undermine the integrity of the entire judicial system. The evidence presented here clearly establishes that the charges against the defendant were, in part, built upon fraudulent discovery, and it is only through the dismissal of these charges that true justice can be restored.

“ Mr. Guertin also reported discovery material in the present case has been altered and "outside pressure is being applied to the courts" by federal government agencies. “

“ For instance, he wrote, "Based on everything that I have now uncovered, the obvious as well as confirmed involvement of outside forces applying pressure to the courts and directly monitoring my case... along with the additional discovery I've made of someone within the Hennepin County Court system itself involved in what I would assume is a 'criminal' act by producing an alternate (fraudulent..) version of discovery materials related to my case which was not only missing 24 images but which also contains very clear signs of image manipulation it is fair to say that I do not trust anyone at all." “

(see [Exhibit S](#), Index 10, p. 4)

“ He stated he can prove Netflix committed fraud and that someone in the court system is creating fraudulent copies of his discovery material, and that he wants to proceed to trial because he does not trust the criminal court system. “

“ He also reported he continues to be monitored by the various government and corporate entities and noted concern these entities will interfere with his court case so that he will be incarcerated. “

(see [Exhibit S](#), Index 10, p. 5)

“ His competency-related abilities remain impaired due to symptoms of his mental illness, which suggests any treatment he is receiving is not effectively stabilizing his mental status. The prognosis for his psychotic symptoms remitting on their own is poor and adjustments to his treatment regimen to better target his symptomatology along with consistent compliance with such treatment will be necessary for him to achieve psychiatric stability and restore his competency-related abilities. “

(see [Exhibit S](#), Index 10, p. 6)

“ not to mention the fraudulent discovery materials that were provided to the psychological examiner Dr. Michael Roberts who actually conducted my civil commitment exam on August 1, 2023. ”

“ but which also lays out some rather serious (criminal...) actions taking place within the Hennepin County Courts insofar as the entire issue of fraudulent discovery materials, and multiple sets of discovery being utilized in my case “

“ It is important to point out that the provision of fraudulently altered discovery materials being provided to the psychological examiner who conducted my initial civil commitment proceedings means that the entire basis of my stayed order of civil commitment itself, insofar as the entire foundation it rests upon is all based on fraud. ”

(see Index 116, Exhibit C, p. 2)

“ Specifically, the defendant continues to allege violations of his constitutional rights related to his pending charges based upon his belief that he has been the target of widespread fraud, conspiracy, misconduct, negligence, and retaliation. “

(see Index 116, Exhibit C, p. 4)

“ Mr. Guertin failed to participate in evaluation. However, I have had the opportunity to communicate with the defendant in writing and review documents alleging wide ranging violations of due process, denial of access to the courts, fraud, judicial misconduct, fraud on the court, and civil conspiracy on the part of numerous professionals involved in the legal process. Specifically, Mr. Guertin has asserted the delusional belief that prior evaluators have provided the court with “blatant lies and deceptive reports.” Based upon his communications and review of available records, it appears that Mr. Guertin has declined to participate in evaluation due to ongoing symptoms of mental illness. “

(see Index 116, Exhibit C, p. 4)

“ While Mr. Guertin has generally cooperated with case management when under a stayed order of commitment and has worked with a therapist, there is no evidence that he has ever received psychiatric treatment aimed at targeting symptoms of psychosis. Given his perspective on his situation, he is apt to be unwilling to participate in such treatment voluntarily. “

“ Without compelled psychiatric treatment specifically aimed at targeting symptoms of psychosis, the defendant’s prognosis for attaining the capacity for competent participation in the legal process appears poor. “

(see Index 116, Exhibit C, p. 4)

Feb 13, 2025 | Discovery Fraud Flipbook

- In order to properly view the fraudulent discovery images **make sure you set your PDF viewing software ‘non-scrolling’ mode so that that you are automatically ‘flipping’ to each new page** when you use your mouse scroll wheel or keyboard arrow keys
- The ‘original’ images are from the August 3, 2023 discovery photos that Michael Biglow sent to Guertin via email - this means that a digital chain of custody is established via email records. (see [Index 29](#), pp. 10-13)
- The images with the long file name included are the most recent discovery photos provided to Guertin on Feb 13, 2025 by his defense counsel, and originate directly from the Hennepin County 4th Judicial District Court through their web-based file sharing system they have setup with the Hennepin County Public Defenders Office – this means that these discovery images are ‘official’ as there is a digital chain of custody, and they are digitally stored within this same system. (see ‘Exhibit D’ of this document)

Date Tuesday, February 10th, 2025 at 6:20 PM

Mr. Guertin,

You told us that your prior attorney gave you discovery.

You have also told us that some of the discovery you received is fraudulent.

We have a meeting scheduled for this Thursday, February 13th, at 2:00 p.m. so that we can show you the discovery we received on our system. You can have copies of everything that we are legally allowed to provide you with. However, before we make copies of anything, I want to show you our system and the discovery we received as we have it so you can see exactly how we have it.

I am concerned that if files get download and shrunk, that will distort them and cause you to worry that things were manipulated in a deceiving manner. We sometimes have shrink files or change file names to copy them. I want you to see what we have first, and explain to you how we receive and store discovery, then you can let us know what you want copied and how.

We will go over everything on Thursday when you come meet with us at the office.

Sincerely,

Raissa R. Carpenter ([she/her](#))

Assistant Public Defender - Office of the Hennepin County Public Defender

Location: 701 4th Avenue South, Suite 1400, Minneapolis, MN 55415

My Discovery Fraud Analysis is Complete | URGENT Action is Required

From mattguertin <MattGuertin@protonmail.com>
To Raissa Carpenter<Raissa.Carpenter@hennepin.us>
CC Emmett M Donnelly<Emmett.Donnelly@hennepin.us>
Date Thursday, February 20th, 2025 at 5:09 PM

Raissa and Emmett,

I have completed the analysis of the fraudulent discovery materials, and I am now presenting my findings for your review. Below are the links to the relevant files, which include the detailed forensic examinations and associated discovery materials:

Discovery Fraud Presentation PDFs:

- Main presentation of the fraud, split into three parts -

<https://link.storjshare.io/s/xxxxxxxxxxxxxxxxxxxx/defense-counsel/discovery-fraud/>

- '00__Discovery-Fraud__Brief-Introduction-of-Facts.pdf'
- '01__Discovery-Fraud__Forensic--Analysis-of-5-Images.pdf'
- '02__Discovery-Fraud__Forensic--Analysis-of-1-Image.pdf'

Fraudulent Discovery Images (20 images examined, 40 total):

- Folder with the 20 fraudulent images for your reference -

<https://link.storjshare.io/s/xxxxxxxxxxxxxxxxxxxx/defense-counsel/20%20-Fraudulent-Images/>

- These images represent a matching pair from both the Aug 3, 2023, discovery and the current Feb 13, 2025, set.

Key Documents Pertaining to Discovery Fraud:

- Folder with key discovery documents -

<https://link.storjshare.io/s/xxxxxxxxxxxxxxxxxxxx/defense-counsel/Key-Discovery-Docs/>

- '23-815 Guertin - photos of exterior, interior, person 1.21.pdf' -

(Aug 3, 2023, set)

- '29__Pro-Se-Defendants-Motion-to-Compel-Discovery-and-Affidavit-of-Fact__2024-04-04.pdf' - (April 4, 2024, Motion to Compel)
- '74__EXHIBIT-Y__The-Catch-22__DISCOVERY-FRAUD.pdf' - (Catch-22 explanation regarding discovery fraud)

Key Points of Urgency:

1. Competency Hearing:

As we approach the competency hearing, it may be necessary to file for a continuance to ensure we have ample time to discuss and address these critical findings in person. The scale of what I've uncovered requires careful consideration, and this could potentially alter the course of the hearing itself.

2. Discovery Video:

Please ensure I receive all available discovery video recordings related to my case. As mentioned, I understand that police body cam footage must be viewed in person due to specific limitations. However, I would appreciate having access to everything else that's available, so we can continue our preparation without delay.

3. Reviewing the PDF Forensic Analysis Reports: <~~~~~ (very important...)

The three forensic analysis PDFs I've prepared should be reviewed with the appropriate settings in your PDF viewer. Please make sure the scroll feature is disabled so that the pages 'flip' automatically as you use the keyboard or mouse. This is how I have structured the reports, and it makes the fraudulent alterations much easier to identify in real-time. The visual presentation of the fraud, particularly in the third PDF, is designed as a flipbook—allowing for rapid understanding and clarity.

4. Impact of the Discovery Fraud on My Case:

The forensic analysis I've conducted shows clear evidence of manipulation, starting from the discovery provided on August 3, 2023. This evidence was not only used in the initial psychological evaluation that led to my civil commitment but also in subsequent Rule 20 competency evaluations. I've been labeled as delusional and psychotic for asserting that discovery materials were fraudulent, and there's been a continuous attempt throughout my Hennepin County Mental Health 'adventure' to use my insistence on this issue as evidence to justify forced treatment with powerful antipsychotic drugs.

5. A Critical Moment of Truth:

I've always maintained that there were external forces influencing the course of my case.

With the discovery fraud now irrefutably confirmed, the next steps are crucial. This isn't just about me proving my competency—it's about rectifying a deeply entrenched manipulation. I'm at the point where I no longer have any confidence that those involved have acted in good faith. Whether you actively assist me in highlighting this to the court or not, I will be making this known. The fraudulent discovery materials are now undeniable evidence of systemic misconduct, and I am prepared to expose the truth, even if it requires taking dramatic steps. This is a 'moment of truth' for everyone involved in my defense team.

6. Request for Immediate Discussion:

Given the urgency of this situation, I recommend that we schedule another in-person meeting to discuss the next steps, including how best to move forward with filing motions, potentially seeking a continuance, and revisiting the competency evaluation process. The longer we delay in addressing these significant concerns, the more damaging this oversight becomes.

Please let me know your thoughts and how we can best proceed.

Time is of the essence, and the implications for my constitutional rights, as well as the integrity of the judicial process, are far-reaching.

(I am going to immediately follow-up this email by forwarding the August 3, 2023 discovery photographs directly from the originating source for the purpose of ensuring that an authentic chain of digital custody is maintained.)

Thank you for your time and support,

Sincerely,

Matthew Guertin

Matt Guertin / 27-CR-23-1886 / Additional Discovery Request

From mattguertin <MattGuertin@protonmail.com>
To JoAnne.VanGuilder@hennepin.us
CC Raissa Carpenter<Raissa.Carpenter@hennepin.us>,
Emmett M Donnelly<Emmett.Donnelly@hennepin.us>
Date Monday, February 24th, 2025 at 8:33 AM

JoAnne,

Good morning,

I am wondering if you would be able to please share me on all of the video content that is stored in my discovery file?

Per our meeting, I am aware of body-cam footage not being included, but if you were able to provide me a share link for everything else besides that it would be much appreciated.

Thank you very much,

Matthew Guertin

Guertin also called his defense counsel, Raissa Carpenter on Tuesday, Feb 25, 2025 and left a voicemail regarding the fraudulent discovery materials as well as his upcoming hearing.

1 STATE OF MINNESOTA IN DISTRICT COURT
2 COUNTY OF HENNEPIN FOURTH JUDICIAL DISTRICT

3 -----

4 State of Minnesota,

5

6 Plaintiff, HEARING

7 vs. FILE NO. 27-CR-23-1886

8

9 Matthew David Guertin,

10 Defendant.

11 -----

12 The above-entitled matter came on for hearing
13 before the Honorable William H. Koch, Judge of District
14 Court, on March 5, 2024, at the Hennepin County Government
15 Center, Minneapolis, Minnesota.

16

17 APPEARANCES

18

19 MAWERDI HAMID, Attorney at Law,

20 appeared on behalf of the Plaintiff.

21

22 EMMETT DONNELLY and RAISSA CARPENTER,

23 Attorneys at Law, appeared on behalf of the Defendant, who
24 was personally present.

25

1 (WHEREUPON, the proceedings were duly had:)

2 THE COURT: This is the matter of State of
3 Minnesota versus Matthew David Guertin, Case Number
4 27-CR-23-1886. This is a four-count criminal
5 complaint regarding firearms. We're here today on a
6 contested competency matter.

7 If I could please have counsel note your
8 appearances starting with the State.

9 MS. HAMID: Good morning, Mawerdi Hamid, last
10 name H-A-M-I-D, for the State.

11 MR. DONNELLY: Your Honor, Emmett Donnelly and
12 Raissa Carpenter on behalf of Mr. Guertin who is
13 present and seated between us.

14 THE COURT: All right. Good morning everyone.

15 This case has had a history. We -- I would note
16 that there have been two earlier findings of
17 incompetence in the case back on July 13th of '23 and
18 January 17th of 2024. There's been kind of an
19 approach by Mr. Guertin to the Court of Appeals to
20 review whether or not he could discharge his former
21 counsel, and the Court of Appeals denied that request
22 and did not look at a number of matters that were
23 submitted by Mr. Guertin just as not being necessary
24 for that.

25 I saw you back in July of 2024, sir, and then in

1 October we allowed Bruce Rivers to be discharged and
2 we appointed the public defenders to work with you.
3 Since that time one of my colleagues did order a new
4 Rule 20.01 Evaluation and Dr. Cranbrook, who is here,
5 had attempted to do that. I know there was some
6 federal litigation that kind of had several people
7 have to kind of recuse from working on this case.

8 The matter is still in the stayed status as far
9 as the criminal matter. That case is being moved from
10 Judge Quam to Judge Hudleston because Judge Quam is
11 retiring, but we still handle the competency matters
12 here in probate mental health court and that's why I
13 have the case.

14 We do have a report from Dr. Cranbrook on
15 December 20th indicating that she had attempted
16 several times to set up an interview with you for this
17 most recent evaluation, and that while you reached out
18 to Ms. Carpenter you did not reach out and set up an
19 interview. Nonetheless, Dr. Cranbrook did submit her
20 report on December 20th. In response to that Ms.
21 Carpenter said that she wanted to have a hearing on
22 that.

23 I'd like to just have a better understanding of
24 what it is that the defense is challenging because the
25 report was --

1 MR. DONNELLY: I could speak to that, Judge.

2 THE COURT: Okay. Mr. Donnelly.

3 MR. DONNELLY: So we are not -- I think the
4 present state of the law is that given the
5 incompetency opinion that it would be Mr. Guertin's
6 burden to show that he is competent. Our contest here
7 is not what's in her report, it's what's not in it.
8 We do not have questions really for Dr. Cranbrook and
9 so I believe, I mean, I think it's our burden of proof
10 so technically I think we should be offering first.

11 THE COURT: Right.

12 MR. DONNELLY: We don't intend to call her and
13 don't intend to have any cross-examination questions
14 and would not object to -- if her report was submitted
15 wouldn't object to the hearsay element to that.

16 So our basic position, Mr. Guertin's basic
17 position is that he is competent because he can assist
18 in his defense, because he has reviewed, after kind of
19 a long, hard-fought effort to get the discovery in his
20 case, he's been able to review that and show that
21 there is false evidence that has been used in his
22 case, and particularly with respect to the assertion
23 that he is incompetent and that he participate -- he
24 understands by his ability to go through the evidence
25 and point out what has been doctored and what is false

1 that he does have the ability to consult with counsel
2 and understand the nature of the proceedings against
3 him.

4 He would offer to the Court minimally that there
5 are photographs that have been doctored, that he can
6 show that, and that they are using this basically
7 false claims of evidence against him. So that's the
8 summation of our position.

9 THE COURT: Okay. I'm going to ask for more
10 clarification.

11 MR. DONNELLY: Um-hum.

12 THE COURT: We have a number of submissions that
13 Mr. Guertin, your client, submitted to the Court in
14 anticipation of this motion just like he did before
15 the Court of Appeals and everything else, we're
16 talking hundreds of pages. And they're filed as being
17 pro se, but Mr. Guertin is not pro se, he's
18 represented by counsel. So I don't know if counsel
19 was aware of those filings and said we're not filing
20 that and then he filed them on his own, or if you're
21 adopting those and saying you want them considered by
22 the Court. That's kind of one issue.

23 Another issue, obviously, is while the
24 incompetency findings are still out there, the
25 criminal matter is stayed so there's, you know,

1 there's nothing to be filed or be heard with that.

2 Any insight you can share on --

3 MR. DONNELLY: Well, Your Honor --

4 THE COURT: -- the submissions?

5 MR. DONNELLY: -- I think so. Not a whole lot
6 of insight but maybe some.

7 Our -- The defense, I guess now at least two
8 defense attorneys have raised the competency question.
9 We do not intend to offer our own opinion today about
10 competence or incompetence, but you know from the
11 record and, of course, the proceedings that the
12 defense has raised that question.

13 THE COURT: Sure.

14 MR. DONNELLY: The present state of the law as
15 we understand it is that a person who is claimed to be
16 incompetent has a right to challenge that opinion and
17 that finding and have a contested hearing. And it is
18 in that effort that I understand Mr. Guertin filed
19 those exhibits to discharge the defense burden to show
20 that he is, in fact, competent, that he understands
21 the nature of the proceedings against him, he
22 understands what evidence is and actually filed things
23 in court and, therefore, has exhibited an
24 understanding of what the court process is.

25 I think short of that I think Mr. Guertin would

1 have to address that, you know, specifically. I don't
2 know that that's -- I don't know that counsel can --
3 can speak or testify to his competency or --

4 THE COURT: Well, I understand that. What
5 I'm -- what I'm trying to get it is are these -- We
6 have a number of filings here that are improper, they
7 weren't filed by you.

8 MR. DONNELLY: Right.

9 THE COURT: Okay? So what do you think I should
10 do with regard to those? Is it something that your
11 client is going to have to testify and introduce all
12 through testimony? Do you basically say, Judge, we
13 ask you to consider that as being submitted on behalf
14 of our client whether it's us or our client.

15 Because quite frankly, Mr. Guertin, it's not the
16 way to do it. You have counsel, they're very
17 experienced, they know what they're doing. They're
18 representing you and they will zealously. Trust me,
19 I've had both these attorneys in other cases and
20 they're very persistent.

21 I don't want you to get in the practice of just
22 filing things willy-nilly or filing things that are
23 not with your attorneys' blessing. Frankly, it
24 undermines your claim that you're competent. It's not
25 because the things are nonsensical, I mean, the

1 structure is there, the form -- it's very professional
2 looking. I have not gone through the hundreds of
3 pages that we've gotten because I didn't know if your
4 attorneys would want me to consider it, but there's a
5 lot there.

6 And I know when this went up to the Court of
7 Appeals there was a lot there that you asked them to
8 take judicial notice of and everything. This is not
9 something where there are three people, three counsel
10 on the defense side. You have two and so whether it's
11 before me or whether it's before the criminal court I
12 just want you to work through your attorneys, that's
13 why they're there.

14 So, Mr. Donnelly, back to my original question,
15 do you think that these matters are properly before
16 the Court, these submissions?

17 MR. DONNELLY: That's a tough question, Judge.

18 THE COURT: I only ask tough questions.

19 MR. DONNELLY: And this is -- these -- These
20 things are in a very difficult procedural posture
21 because the defendant is contesting his incompetency.

22 THE COURT: Sure.

23 MR. DONNELLY: And the defendant has a right to
24 do that. And if the defendant were to disagree with
25 their lawyer it would seem that they would have a

1 right to have the judge consider the arguments and
2 evidence that they want them to consider. We have not
3 filed those exhibits, and this is material that Mr.
4 Guertin believes shows his competence.

5 THE COURT: Okay.

6 MR. DONNELLY: And I don't know that we as his
7 counsel when an individual has a right to contest
8 their competency or incompetency can decide we're not
9 going to provide that to the judge.

10 THE COURT: All right. Well, let me hear
11 from --

12 MR. DONNELLY: Thank you.

13 MS. HAMID: -- Ms. Hamid. Oh, I'm sorry,
14 anything else?

15 MR. DONNELLY: No.

16 THE COURT: If I could hear from the State, what
17 are your thoughts about whether or not the Court can
18 properly consider the various submissions of Mr.
19 Guertin in anticipation of this hearing?

20 MS. HAMID: Your Honor, it's the State's motion
21 because defendant has been found to be incompetent in
22 the past and in the current finding by the evaluator,
23 it's the State's position that defendant may not be
24 able to take the stand and to testify as a witness
25 because of the Rules of Evidence 601. He is not a

1 competent witness to testify, Your Honor, and to
2 provide this evidence and submit it into the court.
3 And for that reason it's the State's position that
4 these documents should not be considered or the
5 defendant not be allowed to testify in court.

6 THE COURT: Do you have any case law to support
7 your assertion that someone in a competency
8 determination cannot testify?

9 MS. HAMID: No, Your Honor, but I can -- I can
10 try to find it and supplement --

11 THE COURT: Yeah, I don't think you're going to
12 find it, with all due respect.

13 MS. HAMID: Okay, Your Honor.

14 THE COURT: The -- Someone who's been opined
15 incompetent has a right to challenge that, and I
16 believe we have a duty to hear from that person.
17 Whether or not ultimately it's persuasive or not is a
18 separate issue, but I find it hard to believe that
19 there would be case law saying that, with no
20 disrespect to Dr. Cranbrook and her colleagues, but
21 just because a psychologist says that they believe
22 someone is incompetent that that somehow, and the
23 Court has ordered someone to be incompetent, they're
24 trying to return to competency and so they want to
25 demonstrate that. So I think I have to be able to

1 hear from Mr. Guertin if he wishes to take the stand.

2 All right. I don't want to get wrapped around
3 the axle on the documents, I'd like to get to the
4 substance and then I can look at the documents as may
5 be needed.

6 The defense has indicated they don't intend to
7 call Dr. Cranbrook, does the State intend to call
8 Dr. Cranbrook or can we release her?

9 MS. HAMID: The State does not intend to, Your
10 Honor, the State just offers the report.

11 THE COURT: Okay. It sounds like both sides
12 agree that that can be received.

13 So, Dr. Cranbrook, thank you for being here but
14 so long.

15 All right. Mr. Donnelly or Ms. Carpenter, how
16 would you like to proceed?

17 MR. DONNELLY: Well, I think Mr. Guertin would
18 call Mr. Guertin.

19 THE COURT: Okay. With all due respect, he
20 doesn't call himself, you guys can call him --

21 MR. DONNELLY: We'll call Mr. Guertin.

22 THE COURT: Okay. Like I said, there are two
23 attorneys, there aren't three.

24 MR. DONNELLY: Well, just -- just so you know
25 that, and you probably remember, that he wanted to be

1 pro se and --

2 THE COURT: Oh, I know. I understand all that
3 and the law says he can't do that.

4 (WHEREUPON, a discussion was held off the
5 record.)

6 THE COURT: We'll go back on the record.

7 MR. DONNELLY: Judge, I think the premise of our
8 argument here is that Mr. Guertin has been able to
9 analyze certain pieces of evidence and determine that
10 it's false evidence and deceptive and some of that has
11 been used, and the part that he's highlighting have
12 been used in opining that he is incompetent.

13 THE COURT: Okay. We'll, we'll see where it
14 goes. If he's offering expert testimony or something
15 regarding some expertise or something I'd like to know
16 more about that at the appropriate time.

17 Okay. Sir, why don't you come on up and take
18 the stand please. You can go ahead and have a seat,
19 sir.

20 MATTHEW DAVID GUERTIN,
21 having been first duly sworn,
22 testifies and swears as follows:

23 THE COURT: Thank you, sir.

24 I'm going to turn the -- Who's doing the
25 questioning?

1 MR. DONNELLY: I'll do it.

2 THE COURT: Okay. Mr. Donnelly, you may
3 proceed.

4 EXAMINATION

5 BY MR. DONNELLY:

6 Q All right. So, Mr. Guertin, would you just start by
7 telling Judge Koch what your recollection of the
8 history, a brief history of the procedures that have
9 brought you here today that you're contesting.

10 A A brief history of the procedures meaning?

11 THE COURT: Well, maybe -- I mean, you've been
12 found incompetent and you believe that you are
13 competent?

14 THE WITNESS: Yes, the -- What's brought me here
15 is three Rule 20 exams that have determined I'm
16 incompetent with the initial stayed over civil
17 commitment being completed on my behalf successfully,
18 and that hearing originally took place on August 1st
19 of 2023 and after which point on August 3rd of 2023 I
20 was emailed a PDF of 80 photographs from my
21 court-appointed attorney at the time Michael Biglow.

22 I never asked for these photographs so they
23 didn't get reviewed until a few months later at which
24 point I noticed discrepancies, and then filed my first
25 ever court motion in my life on January 5th of 2024

1 which was seeking discovery materials. And that's
2 kind of been my consistent path and relentless pursuit
3 of the truth ever since.

4 And as a result the -- Dr. Michael Robertson who
5 conducted my civil commitment exam hearing on
6 August 1st over a Zoom hearing relied on those 80
7 photographs that were provided in the manipulated
8 discovery materials that I was given. And then the
9 subsequent two Rule 20 exams not only also used my
10 claim of there being manipulated evidence as evidence
11 of my supposed mental health issues and a reason why I
12 needed to be placed on powerful antipsychotic drugs
13 against my will to make me competent, but also they --
14 there's false narratives being perpetuated in all
15 subsequent Rule 20 exams after the first one that
16 would include me being very candidly honest in the
17 first one and saying that I've used every drug in my
18 life besides heroin, and then in subsequent exams it
19 says basically that it makes me look like I have a
20 continuing and ongoing problem with every drug besides
21 heroin.

22 It says that I have a history of suicide and
23 self-harm in the subsequent reports which is
24 completely not true. I've never been hospitalized for
25 suicide. I've never attempted suicide. So that's

1 blatantly untrue.

2 It says that I have a history of psychosis, and
3 that's untrue, there is no history of psychosis.
4 There's no documentation that they can provide, that
5 the prosecution can provide that proves that I do have
6 it because that's not true.

7 There was a letter submitted by my California
8 physician that I've been seeing, I've been on the same
9 prescription for ten years since 2016 and that my
10 California physician confirmed that there's no history
11 of psychosis, et cetera. It says that I have a
12 history of mania, that's untrue.

13 THE COURT: Who -- I'm sorry, who is the doctor
14 in California?

15 THE WITNESS: Dr., I'm going to space on his
16 name now. I'm spacing on his name.

17 THE COURT: Okay. I just -- I just -- You're
18 giving kind of a bit of a narrative here, which I
19 understand, but I just -- I want to make sure that if
20 you want to give detail that we get it and it's not
21 coming --

22 THE WITNESS: Yeah, it's -- It's submitted in
23 one of the filings, and it was submitted also in the
24 civil commitment hearing as a single piece of evidence
25 that was passed along by Michael Biglow during the
